WORK EXPERIENCE

RESEARCHER - COGNITIVE ROBOTICS AND MANIPULATION Oct 2021 - Feb 2024
Istanbul (TR) Boğaziçi University: Cognitive Learning and Robotics Laboratory
Enabled industrial and collaborative robots to learn manipulative actions, adapt them, plan and perform different primitives on real-life objects, assess the results to achieve long-term goals.

RESEARCHER - VIRTUAL REALITY Jun 2022 - Dec 2022
Istanbul (TR) Boğaziçi University Virtual Augmented Reality Laboratory
Integrated Particle Physics in VR for Fluid, Cloth, and Deformable Objects, 3D Models creation and animation, LIDAR scan of environments, photogrammetry, mesh cleanup, re-texturing.

RESEARCH ASSISTANT - INTERACTION ROBOTICS Apr 2020 - Sep 2020
Stockholm (SE) KTH Royal Institute of Technology: Robotic Perception and Learning Department
Creation of software for natural language interaction with a humanoid robot. Human-Robot Interaction and Dialog Engines, Conversation handling and users data memorization.

RESEARCH SCHOLAR - COMPUTER VISION Sep 2018 - Sep 2019
Lisbon (PT) IST Instituto Superior Técnico: I.S.R. Institute for Systems and Robotics - VisLab
Software enabling a mobile robot to navigate and recognize surroundings. SLAM and Visual Navigation Systems, Indoor Bluetooth Localization, Object Recognition, NLP for Robot Interaction

EDUCATION

MSc. COMPUTER SCIENCE AND ENGINEERING, *University of Bologna* Sep 2019 - Dec 2023
Thesis: Novel robotic action synthesis with Conditional Neural Movement Primitives.
Exchange MSc student at Stockholm University: Network Security, BI, and Cyber Forensics.

BSc. COMPUTER SCIENCE AND ENGINEERING, *University of Bologna* Sep 2014 - Sep 2019
Thesis: Framework for navigation and Human-Robot interaction with humanoid robots.
Exchange student at Lisbon University: Artificial Intelligence, Operational Research.

TECHNICAL SKILLS & SOFTWARE

Programming paradigms: imperative/OOP/functional/logic/concurrent.
Languages: C, C++, C#, Java, Scala, Bash scripting, Python.
Advanced knowledge of embedded systems and automation,
Image processing algorithms, machine learning, video/photo editing.

Git/GitHub Actions/Projects
OpenCV
ROS
PyTorch

LANGUAGES & INTERESTS

IT	Native Speaker	Winner "The 30 new emerging ideas of 2021" - Startup Day Unibo
EN	Full Proficiency	Theoretical and Practical course of First Aid for companies
PT	Conversational	Cooking and DIY Enthusiast
SV	Basic level	Sport and Videomaking Passionate
TR	Basic level	Food Aid Program Volunteer - Blood Donor
